## CO. BAR MEMBERS HONOR FORMER JUDGE'S MEMORY

35 Gather at Court House To  
Pay Tribute to Late  
Harman Yerkes

### H. A. JAMES SPEAKS

Attend Funeral Service of The  
Beloved Barrister  
In A Body

DOYLESTOWN, Mar. 8.—Thirty-five members of the Bucks County Bar Association Monday afternoon met in a memorial service in Court Room No. 1 at the court house to pay a last tribute to former Judge Harman Yerkes, whose funeral followed the service. Judge Yerkes was the president of the association at the time of his death.

In his tribute to the memory of Judge Yerkes, Henry A. James, of this place, said in part:

"Few of us can expect to have such a long and useful life, but we may all bear in mind the record he left as an able lawyer, a citizen interested in the affairs of his county and a man of the highest character."

"Today we meet to pay tribute to one of our members who rounded out a period of almost sixty-three years as a member of the Bar of Bucks county. It is a pleasure to note that he was in active practice and at the time of his death, the leading member of our Bar, the sage of the profession in our county, a man much respected and held in high honor. Judge Yerkes achieved an enviable record. His ancestors were among the original settlers of this county, and many of them reached places of prominence and distinction, but none have taken so prominent a part in the making of the history of Bucks county as Judge Yerkes. Brilliance of mind and earnestness of purpose were outstanding traits that he had in a large degree. He was recognized as a law maker of clear judgment, a forcible and eloquent debater, and a much feared antagonist."

"From history, tradition and from our own personal knowledge, our county has been signally blessed in the Judges who have adorned the Bench. Comparisons may be odious, but those of you who have observed the Judges of other counties of this State and other States, must have been impressed with the fact that we have never had to be ashamed of the men chosen for that office."

In opening the memorial meeting a few remarks were made by the presiding officer, Judge William C. Ryan, and called attention to the fact that Judge Yerkes developed a large and lucrative practice and that as an outstanding man, was interested in many things that he started and that must now be carried on by others to completion. Judge Ryan appointed as members of a committee to frame fitting resolutions the following members of the Bar: Thomas Ross, Henry A. James, William Stuckert, Arthur M. Eastburn and Webster S. Achey.

The resolution in part follows:

"While at times criticized for severity of sentences, his career as President Judge of the Courts of Bucks county resulted in the diminution of crimes in the county and in marked expedition of the business of the Courts, and led to his being constantly sought after to conduct courts in many counties of the State."

"His career at the Bar was that of a painstaking and faithful practitioner in all matters entrusted to his care. He was the most eminent member of the Bar of Bucks county and his reputation as a lawyer extended throughout this whole Commonwealth."

"Ranking among the leaders of the Bar, there were certain qualities which gave him a position of eminence, among which may be noted his absolute honesty and integrity, his natural endowment of common sense and sound judgment, and an excellent knowledge of human nature; to these were added a wide experience and a wide legal knowledge."

"Judge Yerkes' professional engagements absorbed a large share of his attention, but still he found time to take an interest in the affairs of this community and county. While advanced in years, until the last, he was active and energetic in promoting the good of his fellow citizens, and was notably active in the promotion of Washington Crossing Park, in the affairs of the local Historical Society and in the conduct of the Norristown State Hospital."

A copy of the resolutions was ordered spread upon the minutes of the Court and a copy sent to the family of the deceased.

Following the memorial service the members of the Bar Association attended the funeral in a body.

Others who spoke briefly of personal relationship with former Judge Yerkes were Joseph G. Denny, of Philadelphia, who was formerly associated with him in his Doylestown office; Stace B. McEntee, Thomas Ross and Howard I. James.

Following the memorial service, the members of the Bar Association attended the funeral in a body.

Among the out-of-town men of prominence in attendance at the funeral were Judge J. Whittaker Thompson (Continued on Page Six)

## ELSIE MACKAY AND HER PILOT READY FOR HOP

Destination of Monoplane,  
Resting Near London,  
Unannounced

### DISTANCE THO'T GREAT

LONDON, Mar. 8.—(INS)—While a powerful Stinson-Detroit monoplane rested upon the field at the Cranwell Airdrome, in Lincolnshire, today poised for and supplied for a long flight with the Hon. Elsie Mackay and Capt. Walter Hinchcliffe as its occupants, there was mystery as to the plane's destination.

A sensational report was printed by the Daily Express that Miss Mackay and Hinchcliffe (CQ) would hop off on a non-stop trans-Atlantic flight for America, but later developments indicated that the flyers planned to head toward India. The Daily Express published a circumstantial account of the plans for a trans-Atlantic flight, but there was no confirmation from either Miss Mackay or Capt. Hinchcliffe.

Mrs. Hinchcliffe, wife of the pilot, said her husband contemplated a flight to India. She declared she knew nothing of any plan to attempt a trans-Atlantic flight.

Expert aviators said it would be a most dangerous undertaking to try to fly over the North Atlantic at this time of the year on account of storms.

This was the first time in a week that Hinchcliffe failed to show up at the flying field to make daily tests with the monoplane which was still in his hangar at 139 p. m.

However, there are indications that a lengthy flight is planned. It is reported that the plane is fueled for a long journey and that a quantity of food has been taken on board.

The plane is the same type as that used by Brock and Schlee on their long flight over the Atlantic and across Europe and Asia to Japan. It has a cruising speed of 90 miles an hour.

## BRISTOL MEN SUE TO RECOVER DAMAGES

Walker and Gosline Want To  
Be Compensated For  
Damages to Wagon

### OTHER SUITS STARTED

DOYLESTOWN, Mar. 8.—One divorce suit and two damage suits were started yesterday in the Court of Common Pleas of Bucks county. Jesse Seaver, of East State street, this borough, has started action in divorce against his wife, Margaret Blanch Seaver, of 2627 South Bouvier street, Philadelphia, charging desertion on June 5, 1921.

The suit was brought by John L. DuBois, of Doylestown, attorney for the libellant. The Seavers were married on May 26, 1915, in Philadelphia.

Frederick G. Satterthwaite, of Yardley, has started suit for \$547.40 damages against Conrad Ambrosius, of 1327 North Hancock street, Philadelphia, for damages to an automobile and for personal injuries alleged to have been sustained in an accident on August 25, 1917, while Satterthwaite was driving with a horse and wagon along the Lincoln highway between Morrisville and Fallsington. In the statement of claim it is alleged that an automobile driven by Ambrosius in the opposite direction from which the wagon was being driven, collided with the wagon.

To recover \$500 damages from Paul E. Thomas, of Doylestown, suit has been started by Charles F. Walker and John Y. Gosline, of Bristol, trading as Walker and Gosline, ice manufacturers. It is claimed that Thomas' automobile collided with the ice wagon owned by Walker and Gosline on September 2, 1927, on Bath street.

Jacobs, of East Berlin.

## NEWTOWN COUPLE WEDDED 50 YEARS; ARE STILL HAPPY

Mr. and Mrs. Evan T. Worthington Have Joyous Occasion

### REFUSES PHOTOGRAPH

Says He Still Has Faith in The  
World and Its  
People

NEWTOWN, Mar. 8.—Today is a joyous occasion at the home of Mr. and Mrs. Evan T. Worthington for it is the occasion of their fiftieth wedding anniversary. Because of Mr. Worthington's outstanding prominence in the Quaker faith in the eastern section of Pennsylvania, today's occasion is of more than ordinary interest.

At his place of business here yesterday, a general store that has been conducted as such for 125 years, Mr. Worthington told his interviewer that both he and his wife, who fifty years ago today was Miss Sarah F. Williams, of Erwinna, Bucks county, attributed their fifty years of happy married life to the fact that they have been sticking close to the good old-fashioned religion.

"We have always tried to live the decent life and have had abiding faith in the things that are right," said Mr. Worthington. "That alone means happiness in life. And I believe that people that do not have such faith in the things that are good, can not get out of life what should be their share."

Mr. Worthington, a very modest and refined gentleman, when asked by his interviewer for a photograph of himself and wife, emphatically declined saying that under no conditions would he at this late date try to break up a happy marriage of fifty years. So the story goes without the photographs.

Unlike some others, Mr. Worthington does not believe the world is going bad and that young folks today are not as they should be. He believes that certain things are not as they should be, he said, but qualified his explanation by saying "I am sure that the young men of today can fight their own battles."

Because of Mr. Worthington's very wide circle of friends in Bucks, Philadelphia and other nearby counties, both he and his wife have been receiving congratulations galore.

Although no particular hobby is claimed by Mr. Worthington, it is known that his very active interest in affairs of the Friends' Meeting and the Quaker faith in general takes up much of his time when he is not busy at his store. For many years he has been a member of the George School committee of 44 members, he being one of the four from Bucks county. He is also a member of the representative committee of the Philadelphia Yearly Meeting. He is quite active in the ministry of the meeting and has visited other Meetings in various sections of the country. In business life Mr. Worthington, aside from his own store, is president of the Mutual Insurance Association of Bucks county and vice-president of the Bucks county Contribution. For a number of years he was president of the Newtown Board of Health and was Borough Treasurer at one time. For the past fifteen years he has been treasurer of the Newtown Building and Loan Association.

Back in 1855, Mr. Worthington was born in Buckingham. His boyhood days were spent in that section where he later conducted a general store and was postmaster of the village. Fifty years ago today at Erwinna, Bucks county, he married Miss Sarah F. Williams.

One of the unusual things about today's celebration is that at a dinner party given at noon today, four of the eight members of the Worthington family of fifty years ago, were among the guests present. All of the eight members of the party are living, but the other four were unable to be present today. Among those who were in the party fifty years ago and were here today are Mr. and Mrs. Lewis W. Fell, Philadelphia, Warren S. Ely, Doylestown, and Mrs. John H. Ely, Doylestown.

For the past thirty-seven years Mr. and Mrs. Worthington have resided in Newtown. The general store conducted by Mr. Worthington during that time has changed owners but twice in 90 years.

In spite of their advanced years, both being born in 1855, Mr. and Mrs. Worthington appear as happy in years as others might at the age of sixty. The couple celebrating the golden wedding anniversary today have one son, Elisha Worthington, of Philadelphia, and two grand-children, Miriam and Helen Worthington, of whom they are justly proud.

CARD PARTY  
A progressive game and card party will be held by the Shepherds' Delight Lodge, Order of Shepherds of Bethlehem, on Tuesday evening, March 13th, at the residence of Mrs. Edith Ratcliffe, 905 Garden street. A nominal charge will be made, and prizes will be provided for the successful individuals. Supper will be served following the games.

## GETS PROMOTION IN THE NATIONAL GUARD

Linn, West Point Graduate,  
Now Holds Industrial  
Post

### IS EMPLOYED HERE

A Bristol resident, W. Armin Linn, son of Mr. and Mrs. Walter Linn, of Philadelphia, has been commissioned a captain of infantry and assigned as plans and training officer on the staff of the 11th Infantry, Pennsylvania National Guard. The headquarters are in Philadelphia.

Captain Linn, before his promotion was for two years adjutant and commander of Headquarters Company of the Second Battalion, 11th Infantry. When his parents resided in Bristol Linn attended the Bristol public schools. Later he was appointed to West Point by Congressman Henry W. Watson, through competitive examination. His marks in this examination were excellent, inasmuch as he was competing with many other contestants.

He was graduated from the United States Military Academy at West Point in 1924 and was immediately assigned to the 82nd Field Artillery Battalion, the Army's crack mounted organization located with the First Cavalry Division on the border at Fort Bliss, Texas.

For more than a year he engaged in regular troop duties, taking an active part in athletics. At West Point he had excelled in wrestling, and he furthered his interest in that sport when he was commissioned in the Army. He was captain of the soldiers' wrestling team, which won the El Paso championship. Later he entered the amateur tournament of 1925 and won the light heavyweight championship of Southwestern United States.

He resigned from the regular Army in September 1925 to go into business, but still retained military connections with the 305th Reserve Cavalry and the 11th Infantry.

Captain Linn is now purchasing agent for the Bristol plant of the Pacific Steel Boiler Corporation.

During the World War he served with Boy's Working Reserve, a semi-military organization composed of high-school students under the military age, which was trained at State College, Pa.

### EFFECTIVE "DIRECT ACTION"

Some months ago the country was observing a little experiment in Texas with a woman governor. That experiment was successful in that it taught the state a lesson in politics. Now Texans are experimenting along a different line and with far more satisfactory results.

For several years Texas banks fared rather hard at the hands of bandits and safe-crackers. In eight years there were 140 successful bank robberies, with losses of more than \$500,000 and only thirty convictions. In the majority of cases the robbers made a clean get-away and where suspects were arrested it was hard to get convictions. Of the thirty bank robbers convicted, some later escaped and others were pardoned.

Facing higher burglary insurance and alarmed over their financial losses and danger to the lives of their employees, the bankers formed a protective association and let it be widely known that they would pay \$5000 for every "dead bandit" and not one penny for a live one.

During the six months following the posting of that notice three bandits were killed, two bandits were severely wounded, one of the most dangerous gangs of bank bandits was broken up, two robberies were frustrated and only one was successful. Robbery attempts decreased and arrests of robbery suspects increased.

Less unfavorable comment was provoked by the drastic action of the Texas bankers, even when it provoked the ruthless shooting down of bank bandits, than would the execution of those same bandits for murder. The Texas experiment is interesting because it partially solves a perplexing problem without the aid of new legislation and without raising taxes.

### MOTOR CARS "FUNNY TAGS"

The end of the day of the so-called "humorous" auto tag is in sight. New Jersey and Pennsylvania have declared war on such signs as "If you can read this, etc." Only official license plates are permitted.

Some motorists find a great satisfaction in suspending these plates to their cars. Just what the psychology is that prompts such decorations is not intelligible to every person, but apparently somebody gets a "kick" out of it.

But there will not be any more of that kind of "kick" in New Jersey and Pennsylvania. And similar action will probably follow in other states as they learn the confusion between the official and the supplementary tags and are impressed with the excesses and extremes to which these jokesmiths go with their humor.

Movie director says a fighting chin is hard to find, yet many do their fighting that way.

With the return of sweeter music, ingenious efforts are being made to keep jazz popular, someone even suggesting that it be prohibited by law.

When you consider his present eminence, don't forget that Mr. Hoover achieved it against heavy odds; He had to live down war bread.

Our history shows that no epoch-making piece of legislation is included among those which were enacted because congress "had to do something about it" before adjournment.

## TELL CO. ENLARGED PLANT DURING 1927

Annual Report Shows Total Increased Investment of \$15,200,000 in Plant and Equipment

At the end of 1927, The Bell Telephone Company of Pennsylvania had an investment of \$27,904,689.49 in plant and buildings throughout the state and a total investment of \$236,381,572.23 in telephone plant and equipment.

This was the information contained in the descriptive balance sheet of the annual report of the Pennsylvania Bell Company recently released to the stockholders.

In comparison with the same figures of the previous year, the investment in plant and equipment taken from the balance sheet shows an increase of more than \$15,000,000.

During the year just closed, new buildings or large additions were made at West Chester, Harboro, Frackville and Nanticoke. Work was begun or continued on buildings in Germantown and Manayunk in the Philadelphia section, Swarthmore, Pittston, Wilkes-Barre, Lancaster and the Hilland Central office in Pittsburgh.

The company now owns and occupies 105 central offices, shops, clerical and other buildings and leases space in 263 others throughout the state.

## ANNUAL REPORT TELLS OF CONSOLIDATIONS

Bell Co. Purchases Plant in Some Localities, Sells in Others

During 1927, says the Annual Report of The Bell Telephone Company of Pennsylvania, there were a number of consolidations throughout the state. This means the elimination of telephone duplication in those communities where the consolidations were made.

In certain of the communities, The Bell Telephone Company of Pennsylvania sold their holdings and in certain others they purchased the equipment and apparatus of the other company operating there. This naturally is of advantage to shops and other places of business where there is a need to subscribe to both services for the convenience of their customers. In the future these business places can be reached by all their clients over the lines of one company.

At some points in Cameron, Elk and Clarion counties, the physical plant of the Bell Telephone Company was sold to the Home Telephone Company of Ridgeway during 1927. At Emlenton, the Pennsylvania Bell equipment was sold to the Valley Telephone Company.

In Indiana County, The Bell Company purchased the plant and equipment of the Blairsville Telephone Company. It also bought a portion of the plant of the Home Telephone Company of Ridgeway in McKean and Warren counties and all the physical property of the Huntingdon and Clearfield Telephone Company and the Summerville Telephone Company in Cambria, Clearfield, Indiana, Centre, Jefferson and Clarion counties.

At certain of these points, says the Annual Report, the service has already been consolidated; at others this consolidation is awaiting the provision of the necessary plant and equipment.

## TELEPHONE SERVICE GREATLY EXTENDED

American Subscribers Can Now Reach 2½ Million European Telephones

Telephone service is no longer limited to the 18,350,000 telephones in the United States and those operating in Canada, according to the Annual Report of The Bell Telephone Company of Pennsylvania just released by President Leonard H. Kinnard.

Through the report, Mr. Kinnard and the Board of Directors of the Pennsylvania Bell Company point out the great advances recently made in long distance telephone communication. Cuba was linked to the United States several years ago, but it was in 1927 that transatlantic service first began to operate. Great Britain was the first country to be so connected. During the year also long distance service was likewise extended to the principal cities of Mexico.

The vastness of the Atlantic was once more conquered in the early part of 1928 when the service was extended to Brussels and Antwerp in Belgium, Berlin and Frankfurt-on-Main in Germany were added shortly afterward and Gottenburg, Sweden, are the latest of the European cities which can now be reached by Bell subscribers in America.

The telephone calls passing from America to Stockholm pass over one cable and under two seas. A radio link joins America and Great Britain and the voice sounds are then carried by means of a submarine cable under the North Sea to Holland. From here they go across Germany via Hamburg to Rospeck, from whence there is another dive under water across the Baltic Sea to Malmö, Sweden. From here the voice sounds are carried by land cable to Stockholm, a distance of approximately 1,000 miles.

By reason of these extensions there are now approximately two and a half million telephones in Europe that can be reached by the American subscriber over Bell System lines and equipment.

## To A Million Boys and Girls Between 17 and 70

## The Automobile That Talks The Language That Only They Can Understand

FOR a million boys and girls, between seventeen and seventy, Reo builds the Wolverine.

For them, especially, because Reo knows that they want to swing up to country club porches with the dash of cavalry captains.

For them, especially, because Reo knows how they must be growing tired of seeing and driving just nickel-plate—just fancy headlights—just two-tone color jobs.

So Reo builds the Wolverine to talk the language that all true boys and girls can understand—language dealing with the important business of getting somewhere.

The Reo Wolverine steals its way into your heart as a star halfback steals his way into the heart of the coach. It starts fast—goes fast—has a wonderful change of pace—and it gets somewhere.

Yes, Reo builds the Wolverine

to be the automobile all boys and girls have wished for.

Builds it to be an automobile such as no one ever expected to drive into his or her own garage for so low an F. O. B. price as \$1195 or \$1295.

Try it out—over any roads—in any company. You'll be very much surprised.

## Are You Overdoing?

**Overwork Throws a Heavy Burden on the Kidneys.**

OVERWORK, rich foods and stimulating drinks put extra burdens on our kidneys. When the kidneys slow up, impurities remain in the blood and are apt to make one languid, tired and aching, with dull headaches, dizziness and often nagging backache. A common warning is scanty or burning secretions.

Use Doan's Pills. Doan's, a stimulant diuretic, increase the secretion of the kidneys and aid in the elimination of waste impurities. Are endorsed by users everywhere. Ask your neighbor!

## P.A. and a pipe—that's all I ask

I DON'T mean that I am easily satisfied. As a matter of fact, I'm as critical as they come about smoking-tobacco. There are certain things I demand in a smoke, and I declare here and now that P.A. has 'em. Has 'em and to spare, if you ask me.

Fragrant as spring blossoms. Cool as "The boss wants to see you." Sweet as "I'm going to raise your pay." Mild and mellow and long-burning, with full satisfaction in every

wonderful puff. It seems that there are not enough hours in a day to suit your Prince Albert program. You'll start in early and stay with it far into the night.

But all this conversation won't do you any good, unless you try out the tobacco itself. When it comes to speaking for itself, P.A. is the best little talker you ever listened to. Go get yourself a tidy red tin and get some of this pipe-joy I've been picturing.

More in quality, more in quantity—TWO full ounces in every tin.

**PRINCE ALBERT**

## MILWAUKEE Doctor Makes Remarkable Discovery

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. 699, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The Doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operation. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today. (Adv.)

## EFFECTIVE "DIRECT ACTION"

Some months ago the country was observing a little experiment in Texas with a woman governor. That experiment was successful in that it taught the state a lesson in politics. Now Texans are experimenting along a different line and with far more satisfactory results.

For several years Texas banks fared rather hard at the hands of bandits and safe-crackers. In eight years there were 140 successful bank robberies, with losses of more than \$500,000 and only thirty convictions. In the majority of cases the robbers made a clean get-away and where suspects were arrested it was hard to get convictions. Of the thirty bank robbers convicted, some later escaped and others were pardoned.

Facing higher burglary insurance and alarmed over their financial losses and danger to the lives of their employees, the bankers formed a protective association and let it be widely known that they would pay \$5000 for every "dead bandit" and not one penny for a live one.

During the six months following the posting of that notice three bandits were killed, two bandits were severely wounded, one of the most dangerous gangs of bank bandits was broken up, two robberies were frustrated and only one was successful. Robbery attempts decreased and arrests of robbery suspects increased.

Less unfavorable comment was provoked by the drastic action of the Texas bankers, even when it provoked the ruthless shooting down of bank bandits, than would the execution of those same bandits for murder. The Texas experiment is interesting because it partially solves a perplexing problem without the aid of new legislation and without raising taxes.

## MOTOR CARS "FUNNY TAGS"

The end of the day of the so-called "humorous" auto tag is in sight. New Jersey and Pennsylvania have declared war on such signs as "If you can read this, etc." Only official license plates are permitted.

Some motorists find a great satisfaction in suspending these plates to their cars. Just what the psychology is that prompts such decorations is not intelligible to every person, but apparently somebody gets a "kick" out of it.

But there will not be any more of that kind of "kick" in New Jersey and Pennsylvania. And similar action will probably follow in other states as they learn the confusion between the official and the supplementary tags and are impressed with the excesses and extremes in which these jokesmiths go with their humor.

Movie director says a fighting chin is hard to find, yet many do their fighting that way.

With the return of sweeter music, ingenious efforts are being made to keep jazz popular; someone even suggesting that it be prohibited by law.

When you consider his present eminence, don't forget that Mr. Hoover achieved it against heavy odds; He had to live down war bread.

Our history shows that no epoch-making piece of legislation is included among those which were enacted because congress "had to do something about it" before adjournment.

## BELL CO. ENLARGED PLANT DURING 1927

Annual Report Shows Total Increased Investment of \$15,200,000 in Plant and Equipment

At the end of 1927, The Bell Telephone Company of Pennsylvania had an investment of \$27,904,689.49 in land and buildings throughout the state and a total investment of \$236,838,157.23 in telephone plant and equipment.

This was the information contained in the descriptive balance sheet of the Annual Report of the Pennsylvania Bell Company recently released to the stockholders.

In comparison with the same figures for the previous year, the investment in plant and equipment taken from the balance sheet shows an increase of more than \$15,000,000.

During the year just closed, new buildings or large additions were made at West Chester, Harboro, Frackville and Nanticoke. Work was begun or continued on buildings in Germantown and Manayunk in the Philadelphia section, Swarthmore, Pittston, Wilkes-Barre, Lancaster and the Hilar Central Office in Pittsburgh.

The company now owns and occupies 105 central office, shop, clerical and other buildings and leases space in 263 others throughout the state.

## ANNUAL REPORT TELLS OF CONSOLIDATIONS

Bell Co. Purchases Plant in Some Localities, Sells in Others

During 1927, says the Annual Report of The Bell Telephone Company of Pennsylvania, there were a number of consolidations throughout the state. This means the elimination of telephone duplication in those communities where the consolidations were made.

In certain of the communities, The Bell Telephone Company of Pennsylvania sold their holdings and in certain others they purchased the equipment and apparatus of the other company operating there. This naturally is of advantage to shops and other places of business where there is a need to subscribe to both services for the convenience of their customers. In the future these business places can be reached by all their clients over the lines of one company.

At some points in Cameron, Elk and Clarion Counties, the physical plant of the Bell Telephone Company was sold to the Home Telephone Company of Ridgeway during 1927. At Emlenton, the Pennsylvania Bell equipment was sold to the Valley Telephone Company.

In Indiana County, The Bell Company purchased the plant and equipment of the Blairsville Telephone Company. It also bought a portion of the plant of the Home Telephone Company of Ridgeway in McKean and Warren Counties and all the physical property of the Huntingdon and Clearfield Telephone Company and the Summerville Telephone Company in Cambria, Clearfield, Indiana, Centre, Jefferson and Clarion Counties.

At certain of these points, says the Annual Report, the service has already been consolidated; at others this consolidation is awaiting the provision of the necessary plant and equipment.

## TELEPHONE SERVICE GREATLY EXTENDED

American Subscribers Can Now Reach 2½ Million European Telephones

Telephone service is no longer limited to the 18,350,000 telephones in the United States and those operating in Canada, according to the Annual Report of The Bell Telephone Company of Pennsylvania just released by President Leonard H. Kinnard.

Through the report, Mr. Kinnard and the Board of Directors of the Pennsylvania Bell Company point out the great advances recently made in long distance telephone communication. Cuba was linked to the United States several years ago, but it was in 1927 that transatlantic service first began to operate. Great Britain was the first country to be so connected. During the year also long distance service was likewise extended to the principal cities of Mexico.

The vastness of the Atlantic was once more conquered in the early part of 1928 when the service was extended to Brussels and Antwerp in Belgium. Berlin and Frankfurt-on-Main in Germany were added shortly afterward and Göteborg, Sweden, the latest of the European cities which can now be reached by Bell subscribers in America.

The telephone calls passing from America to Stockholm pass over one ocean and under two seas. A radio link joins America and Great Britain and the voice sounds are then carried by means of a submarine cable under the North Sea to Holland. From there they go across Germany via Hamburg to Rospeck, from whence there is another dive under water across the Baltic Sea to Malmö, Sweden. From here the voice sounds are carried by land cable to Stockholm, a distance of approximately 1,000 miles.

By reason of these extensions there are now approximately two and a half million telephones in Europe that can be reached by the American subscriber over Bell System lines and equipment.

# To A Million Boys and Girls Between 17 and 70

## The Automobile That Talks The Language That Only They Can Understand

FOR a million boys and girls, between seventeen and seventy, Reo builds the Wolverine.

For them, especially, because Reo knows that they want to swing up to country club porches with the dash of cavalry captains.

For them, especially, because Reo knows how they must be growing tired of seeing and driving just nickel-plate—just fancy headlights—just two-tone color jobs.

So Reo builds the Wolverine to talk the language that all true boys and girls can understand—language dealing with the important business of getting somewhere.

The Reo Wolverine steals its way into your heart as a star halfback steals his way into the heart of the coach. It starts fast—goes fast—has a wonderful change of pace—and it gets somewhere.

Yes, Reo builds the Wolverine

to be the automobile all boys and girls have wished for.

Builds it to be an automobile such as no one ever expected to drive into his or her own garage for so low an F. O. B. price as \$1195 or \$1295.

Try it out—over any roads—in any company. You'll be very much surprised.

## Are You Overdoing?

Overwork Throws a Heavy Burden on the Kidneys.

OVERWORK, rich foods and stimulating drinks put extra burdens on our kidneys. When the kidneys slow up, impurities remain in the blood and are apt to make one languid, tired and aching, with dull headaches, dizziness and often nagging backache. A common warning is scanty or burning secretions.

Use Doan's Pills. Doan's, a stimulant diuretic, increase the secretion of the kidneys and aid in the elimination of waste impurities. Are endorsed by users everywhere. Ask your neighbor!

## P.A. and a pipe—that's all I ask

I DON'T mean that I am easily satisfied. As a matter of fact, I'm as critical as they come about smoking-tobacco. There are certain things I demand in a smoke, and I declare here and now that P.A. has 'em. Has 'em and to spare, if you ask me.

Fragrant as spring blossoms. Cool as "The boss wants to see you." Sweet as "I'm going to raise your pay." Mild and mellow and long-burning, with full satisfaction in every

wonderful puff. It seems that there are not enough hours in a day to suit your Prince Albert program. You'll start in early and stay with it far into the night.

But all this conversation won't do you any good, unless you try out the tobacco itself. When it comes to speaking for itself, P.A. is the best little talker you ever listened to. Go get yourself a tidy red tin and get some of this pipe-joy I've been picturing.

More in quality, more in quantity—TWO full ounces in every tin.

**PRINCE ALBERT**

—no other tobacco is like it!

Mrs. Ella Berry, of Frankford, Pa., was a recent guest of Miss Jennie Watkins, of Mansion street.

Mrs. Robert Patterson, of Pond street, attended the funeral of a relative in New York City on Tuesday.

## Milwaukee Doctor Makes Remarkable Discovery

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. 699, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 21 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operation. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today. (Adv.)

## LOOKS AHEAD TEN YEARS

"I love life and I want to live it," said Velma West, life-sentenced "husband hammer-slayer," as Judge Jesse D. Barnes (upper right) intoned the words of her punishment. The 21-year-old murderess is already looking forward to her future freedom. "Within ten years I am eligible for release, that gives me hope," she said. Besides no part of her imprisonment is to be solitary.

## Washes, Carries Coal Woman Gains 18 Pounds

"I wash, iron and carry coal and don't get tired since taking Vinol. Also, I have gained 18 pounds," Mrs. S. Cortese.

Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very FIRST bottle often adds several pounds weight to thin children or adults. Tastes delicious. Harry H. Headley, Druggist. (Adv.)
